# DEPARTMENT HEADS, ELECTED OFFICIALS AND EMPLOYEES

Supervisor Srp said the Seventh Judicial District Department of Corrections Advisory Committee met last week and judicial district officials discussed their commitment to continue to partner with the County with the County Resource Center. He said those in the judicial department are seeking to replace the grant funding that was not awarded for third year.

Chairman Irwin said he is trying to get a group meeting set up to revisit the port authority proposal.

Supervisor George said there will be a town hall meeting about the outdoors siren system at the Wheatland Community Center this week. George said there are Clinton County Conservation calendars available for school students. She is meeting with school superintendents to get the calendars distributed.

County Treasurer Dustin Johnson said he is expecting a string of adjustment resolutions as there were issues with Iowa Department of Revenue on utility property tax rates. He said property tax collections are going well.

County Conservation Director Phil Visser said the trailer for environmental education should be delivered this week and was donated by Brian Tugana of Clinton. He said hunting season is starting to gear up with youth deer season next week.

County HR Director Alexandria Ellison said she attended an HR conference last week and received training on benefits and collective bargaining. She also recognized a couple of employees who assisted a visitor who fell: Tammy Stoddard in the Treasurer's Office and Nichole Rickertsen in VA.

## **DISCUSSION WITH POSSIBLE ACTION**

Proposal to Add Permanent Part-Time Concession Position to County Conservation: County Conservation Director Phil Visser said he's provided information to the Supervisors about this matter. He said keeping Rock Creek staffed is always a challenge especially when seasonal help returns to school. He said this proposal would eliminate two seasonal positions. He said the proposed change would only cost the budget about \$1,000 more. He said the Conservation Board approved adding the position with the support of the Board of Supervisors. He said when the staff is short, regular staff works at the store at a much higher wage rate. Srp said the Conservation Board sees value in the proposal. Ellison said this position will have variable hours so the person potentially being hired for the position should be made aware of that. Visser said they have most of the hours figured out to present to prospective hires.

MOTION by Supervisor Srp to support the addition of a permanent part-time concession position in the Conservation Department.

Roll Call: George: Yes; Srp: Yes; Irwin: Yes. Motion carried.

County Administration Building Lease Agreements: County Auditor Van Lancker said at least one of the building tenants has asked for consideration of a month of not paying rent since they were displaced due to construction. Srp said he's comfortable providing the credit. He said they didn't request any of the changes. Johnson said it seems over the top generous. Van Lancker reviewed the monthly rent amounts. Srp said he's still comfortable with providing a month credit. Irwin said he agrees. George said it seems fair.

MOTION by Supervisor Srp to provide the tenants with a one-month credit toward their rent due to displacement due to construction at the Administration Building.

Roll Call: George: Yes; Srp: Yes; Irwin: Yes. Motion carried.

Potential Energy Efficiency Grant Projects: Van Lancker said this grant opportunity came up during the start of the work on the Administration Building, but after Budget Director Nicholas Manrique spoke with the grant administrator it was determined the County was too far along in the project to apply. However, the grant could be used to address lighting upgrades in other County properties. He said he and Manrique have been working with the County

Maintenance Department and local electrician to get estimates on replacing fluorescent lights in County buildings with more efficient LED lights. He said they also added the potential to add motion sensors on some lights in public areas as suggested by a past energy efficiency study. Manrique said those estimates total \$120,800. He said that is more than the grant reimbursement of \$76,610. Srp said he would like to max out the grant. He said the DeWitt office is more modern and spends most of the time with the lights off. He said the Courthouse should be done. Johnson said he's concerned about how intense the lights may be.

MOTION by Supervisor George to authorize the Auditor's Office to submit the energy efficient grant application.

Roll Call: George: Yes; Srp: Yes; Irwin: Yes. Motion carried.

County Compensation Board Establishment: The Board reviewed the legislation approved earlier this year that ended County Compensation Board's that make recommendations on elected officials' salaries. George said the information says they can decide something this year but could still change course next year. She said the Board typically tries to stay with salary increases for the elected officials as with what all County employees get. Srp said his experience has been different as the Board has given elected officials and department heads zero or one percent at times and had to make up for those times later. He said the Compensation Board has an excellent track record with reviewing the information and offering a recommendation. George said there is value in having a commission doing that work. Irwin said he agrees with Srp with the work done by the commission. Irwin said we have a great group who have worked diligently over the last few years. He said the Back the Blue legislation caused issues with the comp boards, but Clinton County's comp board addressed the increase in chunks. The Board asked Van Lancker to create a resolution for the Board to consider.

County Administration Building Project Update: Van Lancker said the second-floor west wing is to a point of completion that will allow for the building tenants on the north side of the building to move back in starting tomorrow. He said there will still need to be work on the HVAC system as those parts come in later in the month. He said the ceiling and light crew will then move down to the new Treasurer area to start work there. He said the windows are progressing on the south side of the west wing. Johnson said countertops are still being considered due to pricing. He said they are shooting for early October to move into the new office.

### 10:30 A.M. Discussion on Behavioral Health Districts

The Board discussed the future of the new district with CEOs of the Eastern Iowa Mental Health Region Lori Elam and the East Central Iowa Mental Health Region Mae Hingtgen. Elam reviewed the new map takes effect July 1, 2025. Elam also provided a timeline for the transition. She said the two regions are putting in a proposal for the new administrative service organization that would administer the new district. Hingtgen said they are currently the largest region in the state and she has been the CEO for five years. Elam said they have been travelling the new district and meeting with Boards of Supervisors. They have also been meeting with providers about their concerns and what they want in a collaboration. She said both regions have good relationships with providers. She said the two regions have partnered on other projects in the past. Elam said the RFP has been written and shared with the regional governing board. She said full RFPs are due in a month. She said the East Central MH Region will be the official name on the submission, but it is a partnership. Irwin said he had some concerns about the new region but became more confident after meeting with Elam and Hingtgen. Irwin said this plan will help keep providers together in the region. He said the map does not make sense to him, but said the State also is not worried about boundaries meaning people can go anywhere for services. Irwin said one thing he likes about the new plan is combining mental health and behavioral health under the same umbrella. He expects some hiccups but it should work well after that. Hingtgen said combining them has been a legislative priority for her region for a couple of years. She said there will be standard eligibility and access criteria due to the new regions. She said this will allow them to leverage the size of the region to get providers to push services out to rural counties for equitability and access. She said the map is just administrative, but people will be able to go anywhere. Elam said there will be more opportunities to bring in federal dollars to work on some substance prevention. George said after hearing from both administrators she is more comfortable with the change, and it should impact people in a more positive way. Hintgen said HHS will award the contract for the administrative services organization.
